**This information is for the "News" section of the website.**

It explains about the Information Seminars and ESM Challenge 2016.
1. **Academic symposiums (Various schools)**

Image

Academic symposiums

Academic Symposiums are arranged and conducted in different schools by ESM for purposes of giving learners an opportunity to sharpen their skills in tackling different questions as they approach the final exams. The preparation and administration of tests for the symposiums is done by qualified and experienced examiners in the 8.4.4 and other curricula offered in different schools in Kenya. These events give learners an opportunity to meet with local and international university representatives with the aim of making informed career choices.

2. **Career Guidance Seminar**

Image

Career guidance Seminars

Joining a desired career is always the goal of every graduating student from college and university. However, making the right decision on the best career is always not easy for many young people. In this regard, the ESM career guidance seminars are a perfect opportunity for young people to find nuggets of wisdom concerning making the best decisions on their future careers.

Our career guidance seminars are held in two dimensions, one is organized for parents and their students and takes place during the August and December holidays in selected venues. Participation in these seminars is done by booking for a chance and paying according to the prices agreed by organizers. Facilitation is always done by top careerists from within and without of the country. During the workshops, a range of topics that surround these topic are tackled in the best way that leaves the students and their parents better informed on the careers they want and where to study them from.

To participate, look out for our events in the ESM magazine and on this website or call to find out more.

4. Stepping Out seminars

Image

Career guidance Seminars

Stepping Out Seminars are organized for students that have finished form four and are preparing to advance their studies in local and international universities. At the same time, there are also Stepping Out Workshops for students finishing their college and university studies, who are readying to join careers with others proceeding for their masters, doctorate and Phd. studies.

These seminars take place in April, and December, subject to the schedule of the organizers at ESM for convenience and best impact.

These forums give the graduating students a chance to meet with university representatives from local and abroad as well as different company CEOs for those wishing to join different careers.

Look out for any upcoming Stepping Out Workshops events on this site and in the ESM magazine.

5. Institutional Visits

Image

Institutional visits

Institutional visits are arranged for local and international universities in selected high schools for purposes of student recruitment. For universities wishing to take part in these exercises, they need to notify ESM three months to the day of the visit for proper planning and effective impact.

These visits offer perfect opportunities for meeting prospective students, parents and career counsellors in the targeted schools. Institutional visits ensure that those universities can reduce on the expenses they would have incurred in recruiting students by meeting their target audience effectively.

To book for a chance in the school visits, **download and fill the form below**, then follow the instructions therein.
